

HURRICAINE ONE®

Single-Use 20% Benzocaine Spray

Efficiency and Infection Control in ONE Simple Solution.

HurriCaine ONE® 20% Benzocaine is the first and only unit-dose, non-aerosol topical anesthetic spray for temporary pain relief during oral and scoping procedures. Each single-use applicator delivers a controlled dose to reduce cross-contamination and medication waste. Containing 0.5 mL of 20% Benzocaine, it provides optimal and safe relief. Barcode tracking supports BCMA protocols for documentation and point-of-care use. **So, it's the one smart choice for safe, efficient, and hygienic pain relief.**

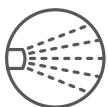

Infection Control

Single-use packaging reduces cross-contamination

Optimal Performance

Fast onset and short duration

360° Area Spray

Completely covers application area with minimal waste

Barcode Tracking

Allows for charge capture and patient documentation

Controlled Dose

Reduces the risk of over-application for improved medication safety

Reduced Risk

Designed to reduce overspray and risk of methemoglobinemia

Cost-Effective Relief

Avoids the cost of wasted product and discarded leftovers

The ONE choice to improving care.

Improve Safety

- Virtually no systemic absorption
- No cardiovascular toxicity
- No aerosols or propellants

Reduce Risk

- Eliminates the risks of cross-contamination and over-applying
- Unit dose with barcoding for documentation and meeting the "5 Rights"

Efficiency and Performance

- Ready to administer and simple to use
- Fast onset of ~10 seconds, short duration of ~15 minutes

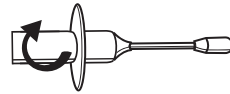

How to Use

1 Tear at notch to open pouch. Remove HurriCaine ONE® from pouch.

2 To unlock, turn clockwise.

3 Grasp HurriCaine ONE® firmly by placing your index and middle fingers on the finger grip and position your thumb against the base of the plunger.

4 Position patient with mouth open. Aim spray tip toward the back of patient's throat.

5 Apply firm pressure to the plunger by pushing your thumb forward to initiate the spray action. Instruct patient to swallow 1-2 times. Anesthesia is accomplished within 30 seconds and lasts approximately 15 minutes.
